

Solid South and cause riots and disturbances.

**Would Remove the Bar.**  
Washington, December 4.—The House got a lively debate today when it began consideration of the Watkins bill to remove the bar of the statute of limitation and make unnecessary "proof of loyalty" in claims for property of Southern people seized by the Federal Government at the time of the Civil War. There is about \$5,000,000 still due for the payment of such claims, and it is estimated that payment of \$1,000,000 would be affected by the Watkins bill.

**Spanish-American War Pensions.**  
Washington, December 4.—Nearly 5,000 widows and minor children of veterans of the Spanish-American war of the Philippine insurrection would receive pensions under the Crago bill, passed to-day by the House without debate.  
The bill provides that the widow of any officer or enlisted man who served ninety days during the Spanish-American war, or the Philippine insurrection, between April 18, 1898, and July 4, 1902, on certain conditions, shall receive a pension of \$12 a month. For each minor child the widow would receive \$2, and in case of the widow's death the \$12 would be paid to the child or children.

**For Initiative and Recall.**  
Washington, December 4.—The initiative and recall of judicial decisions, as amendments to the Federal Constitution, were proposed to-day by Senator Bristow in resolutions laid before the Senate.  
The first resolution would permit the President to submit to popular vote at a congressional election, any measure he had recommended to Congress, and upon which no action had been taken for six months. The second would provide that "should the Supreme Court decide a law enacted by Congress, is in violation of the provisions of the Constitution, the next regular session held after such decision may submit the act to the electors at a regular congressional election."

Under each amendment it is proposed that the questions submitted to the people must have a majority of the popular vote in a majority of the States, as well as a majority of the congressional districts of the nation.  
In a brief explanation, Senator Bristow declared the amendment affecting the President would enable him to appeal from a dilatory or adverse Congress to the people, and that a President could not, as a excuse for delay, bring an undesirable measure, say that it was the best he could get from an unfriendly Congress.  
Senator Bristow, in support of his amendment affecting decisions of the Supreme Court, declared that it would "give to the people an opportunity to state whether they are in favor of the President to stand as the last expression of their will and judgment."  
The resolutions were referred to the Judiciary Committee.

**Confer Full Title.**  
Washington, December 4.—A bill conferring on the rear-admirals in command of the Atlantic and Pacific battle fleets the full titles of admirals was introduced in the House to-day by Chairman Bailett of the Naval Affairs Committee. The officer serving as second in command of each fleet would be vice-admiral.

**Mexican Border Investigation.**  
Washington, December 4.—Important witnesses will testify before the Senate subcommittee investigating conditions along the Mexican border. Chairman William Alden Smith said to-day the committee would return to the Mexican line to complete investigations, and probably would report in January.  
Chairman Smith intimated that representations would be made to President Taft regarding alleged violation of the neutrality law.

**Frear Is Nominated.**  
Washington, December 4.—President Taft today sent to the Senate the nomination of Walter F. Frear to be Governor and Ernest A. Mott Smith to be secretary of the Territory of Hawaii. For postmaster—William A. McFie, at Beaufort, N. C.

and greatly stimulate the industries of that section. By a judicial decision for the right junction, Richmond would become heir to the trade of a territory comparable in importance to that of the Northern Neck district, which will be opened up to Richmond by the construction of the Richmond and Rappahannock River Railroad to Urbana.

At the Stanardsville meeting twenty-three representative men subscribed \$3,000 as an earnest of their intention to back the road with home capital. Railroad builders from New York were present, and stated that as soon as sufficient local money had been subscribed there would be no difficulty in obtaining the major part of the capital required from Northern investors.

The twenty-three subscribers are John S. Chapman, B. I. Pickens, H. C. Jarrett, E. M. Averill, E. D. Durrette, J. H. Williams, B. A. Breeden, George P. Mayo, Blue Ridge Industrial School, Sam T. White, W. B. Sims, W. B. McMullen, J. E. Morris, R. L. Jollett, J. E. Shelton, T. L. Sims, W. A. Crawford, W. S. Chapman, H. W. Meyers, E. S. Brannan, H. H. Malone, E. R. Fitzhugh and J. D. Davis.

The road as projected will be between thirty-three and thirty-four miles long. It will be electrified by water power. If Gordonsville should be fixed upon as the terminus, the road will, in addition to the junction at that point with the Chesapeake and Ohio, with the Southern Railway at Somerset.

The total cost of construction, it is estimated, will be about \$350,000. A tentative statement of the traffic which may reasonably be expected over the proposed road, prepared by a railroad man, shows that the line could easily earn \$25,000 annually, or 6 per cent on an investment of \$350,000. The tentative table makes an allowance of 70 per cent of the gross earnings for operating expenses and taxes.

## GOVERNORS FORM PERMANENT BODY

(Continued From First Page.)

him to address the conference to-morrow on the subject of rural credits. It has been heretofore announced that Mr. Herrick would represent President Taft at the conference, but it was doubtful best to extend him a special invitation.

**Guests Hunt at Beach.**

All of the visiting Governors save two, with their wives and daughters, went to Norfolk yesterday on a special train to be guests of that city and of the National Guard Association, now in session there. The special train left for Chesapeake and Ohio Station at 9:10 o'clock, catching the Norfolk boat at Newport News. Aboard were the Governors and their parties, with members of the local reception committee and of Governor Mann's staff, including members of the Commonwealth and Mrs. R. Q. James, George W. Stevens, president of the Chesapeake and Ohio; Attorney-General and Mrs. Samuel W. Williams, Judge George L. Christian, Colonel Eugene C. Mager, editor of the Sands, Dr. George Richard Ewell, Colonel John Franklin Templeton and Miss Mary Templeton, of Waynesboro; Colonel and Mrs. Carroll L. Kidd, of Bristol; Colonel A. T. Gray, Jr., Mayor and Mrs. George Ainslie, L. & Morris, James D. Crump, Mr. and Mrs. Jonathan Grayson, Ben S. Cohen, Dr. and Mrs. Herbert Mann, William Hodges Mann, Jr., Mrs. D. C. Richardson and Miss Richardson, B. B. Valentine and Major Louis Werner.

**Governor's Salute.**

As the Chesapeake and Ohio ferryboat drew up to her dock in Norfolk, a platoon of the Norfolk Light Artillery Blues fired the Governor's salute of seventeen guns. Automobiles were in waiting to convey the guests to the Monticello Hotel instead of the National Guard meeting, which had just adjourned. An informal reception was had in the palm room of the hotel. Then special cars were boarded for Virginia Beach.

Chairman Harvey M. Dickson, with Vice-Chairman W. W. Sale, of the general committee for the entertainment of the National Guard Association, were on hand with their aides to welcome the Governors and their party. Two bands were taken to the hotel, where the Governors and their parties were received by the officers who attended the oyster roast, which was given jointly for the militiamen and the Governors. The entertainment at the beach was in the hands of a committee of which Major Clinton L. Wright was chairman. Mrs. W. W. Sale was chairman of the committee to receive visiting women.

It was rather remarkable that not a drop of rain fell throughout the day within sight of the party from Richmond, although it was almost continuous in this city. Fog during the train and water trip was succeeded by clearing weather and Virginia Beach it was bright and warm.

**See Aeroplane Flight.**

The Governors were lined up in front of the new casino at the beach for a photograph, but efforts to get the soldiers and others to join were unavailing. While the disarrayed photographs were being taken, the volunteer aviator, who has been amusing that section for weeks made a pretty flight in a monoplane, soaring over the Governor's heads. He went to the north for some distance, circled and returned, effecting a landing on the beach in front of the casino grounds. As the Governor came aboard the ferryboat for the return trip, he went up in the air again, and returned to the lower part of the village, where the center of activities was once located.

Tables were laid both outside and inside the building for the feast. Raw oysters, roast oysters, ham and turkey were served. The feast was a success, and the party was a success. The only attempt at a public feature was a toast to Governor Mann, proposed by an enthusiastic National Guardsman.

There was no time to be lost, and the party was hurried at once to cars for the return to Norfolk. The special train left at 4 o'clock, making the trip in two hours and twenty minutes. The train ran into the rain storm near Petersburg.

Automobiles took the Governors back to the Jefferson for the night meeting.

**Much Business Remains.**

The remaining sessions must necessarily be crowded with events, since the Governors are behind with their program. "Uniformity of Marriage and Divorce Laws" is the first subject for to-day, and will be entered into promptly at 10 o'clock, when Governor Tucker L. Oddie will read a paper. He

## CREDIT SYSTEMS WILL BE STUDIED

Two commissioners from each State in the country will journey to Europe next year to study the question of rural credits as now generally practiced there. Such a plan has been urged for some time, and has been endorsed by many bodies. But it became a practical fact only yesterday, when the commissioners were signed for the passage of the bill to the Senate by the House of Representatives in Washington. The information was given out in Richmond last night by Dr. Owens.

The commission will sail on the Saxonia from New York on April 25, and returning will leave Queenstown on the Oddie on July 18. Countries to be visited include Italy, France, Germany, Austria-Hungary, Switzerland, Denmark, Russia and the Balkan States.  
Returning, the commission will make and publish its report on the rural credit systems it has seen. It is believed all the Legislatures which will meet this winter will make the appropriation for the expenses of the commissioners. In the interest of the farmers, Governors of other States will pay the expenses from contingent funds. All Governors. It is understood, have agreed.

Formal announcement of the consummation of the plan, which has been fostered by the Southern Commercial Congress, will be made by Governor Emmet O'Neal in his speech on the subject before the Governors' Conference to-morrow. The Congress had David Lubin come over last year from Italy to explain the European plan.

## HOUSES FAIL IN CHASE OF NEGRO

Assailant of Charlotte Town Sergeant Makes Getaway—Reward of \$300 Offered.

(Special to The Times-Dispatch.)  
Charlotte Courthouse, Va., December 4.—Bloodhounds, sent from the State Farm to aid in tracking Eli Morton, the negro who last night shot down Monroe Dickerson, the town sergeant, in front of the courthouse, while the officer was endeavoring to serve a warrant charging the assailant with burglary, were unable to accomplish their purpose. They took up the scent at the scene of the shooting, followed it to Drake's Branch, where it was lost on the railroad track, the theory being that the negro followed the rails until a convenient freight gave him an opportunity to make his getaway.

Governor Mann, for the State of Virginia, has offered a reward of \$100 and the town a reward of \$200 for the capture of Morton, who is said to be about twenty-five or thirty years old. Dickerson is resting quietly at his home, and his physicians say that unless complications arise, he will recover speedily.

The crime for which Morton was to have been arrested was breaking into the store of W. H. Smith & Co. Several parties are still in search of the negro, but little hope is entertained that he will be captured in this neighborhood. The town has not fully recovered from the excitement, and the opinion is freely asserted that should Morton be captured hereabouts, punishment other than that meted out by law may be inflicted.
